Reviewer’s report

Title: German ambulatory care physicians’ perspectives on clinical guidelines - a national survey

Version: 2 Date: 30 May 2006

Reviewer: Ilkka Kunnamo

Reviewer’s report:

General

The manuscript is acceptable after the revision.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

I work as the editor-in-chief of EBM Guidelines, a guideline collection that is used in a number of countries, including Germany.
