Reviewer's report

Title: Quality of interaction between primary health-care providers and patients with type 2 diabetes in Oman: An observational study

Version: 3 Date: 9 November 2006

Reviewer: Anna Sarkadi

Reviewer's report:

General

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Thank you for the thorough review of the manuscript which I now found highly suitable for publication in BMC Fam Pract

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
