Title: Nurse telephone triage in out-of-hours GP practice: determinants of independent advice and return consultation

Version: 2 Date: 30 November 2006

Reviewer: Alicia O'Cathain

Reviewer's report:

General
Thank you for sending your revisions. I am happy with them. I remain convinced that 8 nurses is small for looking at nurse characteristics but you have given the odds ratios in table 2 and I can now see that there is no evidence of any differences in odds between types of nurses.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
