Reviewer's report

Title: Why do patients want to have their blood tested? A qualitative study of patient expectations in general practice

Version: 3 Date: 1 August 2006

Reviewer: Richard Kravitz

Reviewer's report:

General
This much improved manuscript will make a good contribution to the literature.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
