Reviewer’s report

Title: Depression and the nature of Trinidadian family practice: a cross-sectional study.

Version: 2 Date: 6 November 2006

Reviewer: Walter W Rosser

Reviewer’s report:

General
I have reviewed the revised manuscript and find it significantly improved over the first round. I would support its publication in its current form.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
