Reviewer's report

Title: Management of patients at risk for cardiovascular events: a national study of primary care physicians

Version: 1 Date: 4 May 2008

Reviewer: Peter Bramlage

Reviewer's report:

The present manuscript reports on the management of different case vignettes by primary care physicians throughout the US. The manuscript is well written and structured and lacks no major issues.

Major Compulsory Revisions: none

Minor Essential Revisions: none

Discretionary Revisions: please structure table 3 into cases - in its present form it confuses the reader

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
