Reviewer's report

Title: Is it Crohn's disease? A severe systemic granulomatous reaction to sulfasalazine in patient with rheumatoid arthritis

Authors:

Leonard G Quallich III (lquall@umich.edu)
Joel K Greenson (facjkgmd@umich.edu)
Hilary M Haftel (hils@umich.edu)
Robert J Fontana (rfontana@umich.edu)

Version: 2 Date: 3 Aug 2001

Reviewer: Dr Jonathan Alexander

Level of interest: A paper of considerable general medical or scientific interest

Advice on publication: Accept without revision

This is an interesting report on SSZ sensitivity which would be of general interest to both clinicians and scientists working in the field of IBD. Although this is a rare occurrence, the good clinical review would be helpful for future reference.
