Reviewer’s report

Title: The Clinical Presentations Of Ectopic Biliary Drainage with a Review of the Literature

Version: 4 Date: 22 October 2009

Reviewer: omar shah

Reviewer’s report:

Though the authors have modified this manuscript as per any suggestion, I still feel that it is not yet fit for publication.

Major Compulsory Revisions

Abstract:
• Reduce the text and be more focused on what you think is the theme of this paper.

Introduction:
• Reduced and rephrase the text.

Result Section:
• It is far too long and confusing.
• Draw a sketch showing ectopic drainage of bile duct.
• Description of findings may be considerably reduced by referring to tables.

Discussion:
• It is exhaustive and needs drastic reduction in size.
• English language needs editing

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
