Reviewer's report

Title: Angiotensin II receptor expression and relation to Helicobacter pylori-infection in stomach of the Mongolian gerbil

Version: 2 Date: 5 August 2009

Reviewer: Tetsuya Tsukamoto

Reviewer's report:

The reviewer thinks that the authors have corrected the manuscript according the comments, although the following flaws still remain.

1. Put the real figure number to each figure.
2. For Figure 5 (Figure 20?), please explain the circle and triangle in the figure legend.
3. There are many typographical errors, which should be corrected.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
