Reviewer’s report

Title: High prevalence of gastroesophageal reflux esophagitis in Chinese patients with chronic liver diseases

Version: 2 Date: 12 February 2010

Reviewer: Daniel Jaspersen

Reviewer’s report:

In response to the points I raised, the authors have submitted a revised manuscript. In addition, they have also provided a letter describing the changes made.

My original criticisms have been answered.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
