Title: Distribution of enteric glia and GDNF during gut inflammation

Version: 2 Date: 7 January 2011

Reviewer: Robert Ehehalt

Reviewer's report:

Dear Editor,

All of my concerns have been properly addressed. I only have one minor revision left. Figure 3, first Western blot. The 66 KDa label does not correlate with the Western blot. I suggest to erase this label or to show the whole blot.

Level of interest: An article of importance in its field
