Reviewer's report

Title: The exact time of collagen peak in bile duct ligated rat model

Version: 4 Date: 25 January 2011

Reviewer: Heather Francis

Reviewer's report:

The authors did not revise this manuscript as asked. Major language editing MUST be performed before this can be considered. While there is importance for the article and perhaps the experiments are sound, the article cannot be considered as is. This was asked for in the original submission by all the reviewers and has not been addressed.

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
