Reviewer’s report

Title: Small invasive colon cancer with severe distant metastasis: A case report

Version: 3 Date: 31 January 2011

Reviewer: Werner Hohenberger

Reviewer’s report:

Comments to the Authors
The authors should comment, whether they had before performed examinations to detect MSI. Lesions like that are highly suspicious of HNPCC.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
