Reviewer's report

Title: Endoscopic resection of duodenal bulb carcinoid tumor larger than 10mm in diameter.

Version: 1 Date: 16 December 2010

Reviewer: YOSHINORI IGARASHI

Reviewer's report:

Major points
This case is not indication of endoscopic treatments.
Carinoid tumors over 10mm have the high risk of metastasis.
Many reports wrote the metastasis of carcinoid over 10mm.
It is not the indication of endoscopic treatments.
Morever the technique is not recommended.
Traditional EMR is somtime uclear of lateral margin.
Then EMR using EVL or ESD is usually perfomed.

Level of interest: An article of limited interest
