Reviewer’s report

Title: Early stage transplantation of bone marrow cells markedly ameliorates copper metabolism and liver function in Wilson disease mice

Version: 3 Date: 19 April 2011

Reviewer: Elke Roeb

Reviewer’s report:

The authors properly addressed all my comments and criticisms. Nevertheless the manuscript should be reviewed by a native speaker.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
