Reviewer’s report

Title: Assessment of intrahepatic blood flow by Doppler ultrasonography: relationship between the hepatic vein, portal vein, hepatic artery and portal pressure measured intraoperatively in patients with portal hypertension

Version: 3 Date: 15 March 2011

Reviewer: Annalisa Berzigotti

Reviewer’s report:

The authors answered only partially to most criticisms; consequently unfortunately the content of the article did not improve significantly.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
