Reviewer’s report

Title: Polymorphisms in ERCC1, GSTs, TS and MTHFR predict clinical outcomes of gastric cancer patients treated with platinum/5-Fu-based chemotherapy: a systematic review

Version: 1 Date: 28 August 2012

Reviewer: Serah funke

Reviewer’s report:

this study did not give introduction/little explanation on inherited genetic variability which may affect treatment outcomes.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
