Reviewer's report

**Title:** A possible involvement of Nrf2-mediated heme oxygenase-1 up-regulation in protective effect of the proton pump inhibitor pantoprazole against indomethacin-induced gastric damage in rats

**Version:** 2  **Date:** 5 August 2012

**Reviewer:** Tomohisa Takagi

**Reviewer's report:**

I re-reviewed your revised manuscript. This paper was well revised along with our comments. In future, I hope that the authors would elucidate the importance of HO-1 signal by pantoprazole in human gastric mucosa in human clinical trials.

**Level of interest:** An exceptional article

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
