Reviewer’s report

Title: A possible involvement of Nrf2-mediated heme oxygenase-1 up-regulation in protective effect of the proton pump inhibitor pantoprazole against indomethacin-induced gastric damage in rats

Version: 2 Date: 25 August 2012

Reviewer: Young-Joon Surh

Reviewer’s report:

The revision has been done mostly well. The suggested title is OK except:

A possible involvement of Nrf2-mediated heme oxygenase-1 up-regulation in protective effect of the proton pump inhibitor pantoprazole against indomethacin-induced gastric damage in rats

--> A possible involvement of Nrf2-mediated heme oxygenase-1 up-regulation in the protective effect of the proton pump inhibitor pantoprazole against indomethacin-induced gastric damage in rats

(Add the word <the> before effect)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
