Reviewer's report

Title: Do gastrointestinal and respiratory signs and symptoms correlate with the severity of gastroesophageal reflux?

Version: 1 Date: 8 December 2011

Reviewer: P. Marco Fisichella

Reviewer's report:

Nice paper. It would be interesting to see what is the specificity and sensitivity of the pH monitoring in this patient population. The Authors have all the information to perform the calculations.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
