Reviewer's report

**Title:** Cyclic Vomiting Syndrome (CVS): is there a difference based on onset; pediatric vs. adult?

**Version:** 2  **Date:** 23 March 2012

**Reviewer:** David Fleisher

**Reviewer's report:**

MS 7951950636510912 on Cyclic Vomiting Syndrome, pediatric and adult onset is a valuable contribution to the literature on this important topic. It is worthy of publication in its present revised form in any first class medical journal. I recommend it without reservation. I have no conflict of interest of any kind with the authors.
