Reviewer's report

Title: Hormone Replacement Therapy is associated with Gastro-Oesophageal Reflux Disease: a retrospective cohort study

Version: 2 Date: 27 January 2012

Reviewer: Tommy Lee

Reviewer's report:

Once again very well-written. I appreciate your responses to our initial critique.

Just a couple of very minor revisions:

1) "ppi-use" on page 7 should be properly capitalized as it is elsewhere in the paper.

2) What is the "MRC" mentioned on page 4?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I have no competing interests.
