Reviewer’s report

Title: Accuracy of endoscopic diagnosis of Helicobacter pylori infection according to level of endoscopic experience and the effect of training.

Version: 2 Date: 9 July 2013

Reviewer: Fadi Rzouq

Reviewer’s report:

The study is well designed and performed.
The exclusion criteria are well defined now and seem appropriate
Also, the definitions of active and eradicated infection are clear

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
