Reviewer's report

Title: Improvement of endocytoscopic findings after per oral endoscopic myotomy (POEM) in esophageal achalasia; Does POEM reduce the risk of developing esophageal carcinoma?

Version: 4 Date: 7 November 2012

Reviewer: P. Marco Fisichella

Reviewer's report:

Nice manuscript, well written. Interesting research idea, very original. Minor flaws in the retrospective study design. Discussion, tables and figures are appropriate. No revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
