Title: Crohn’s Disease Presenting With Orbital Myositis After Loss Of Response To Infliximab And Then Responding To Adalimumab - A Case Report And Review Of The Literature

Version: 4 Date: 15 December 2012

Reviewer: Ekrem Unal

Reviewer's report:

Dear Authors,

I would like to congratulate you for your effort.

Although there are several case report of about orbital myositis associated with Crohn’s Disease, the presented case is original and worth publishing with the usage of Adalimumab.
