Reviewer's report

Title: A multi-centre randomised double-blind placebo-controlled trial to evaluate the value of a single bolus intravenous alfentanil in CT colonography

Version: 1 Date: 15 April 2013

Reviewer: Andrew Slater

Reviewer's report:

Minor Essential Revisions
1. Reference 18, 'JAMA' in capitals
2. Reference 24 doesn't make sense
3. Discussion: 'Pain was assessed in prone position only'. According to table 2 pain was assessed in all 4 positions

This is an interesting, well-designed and well-written study worthy of publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
