Reviewer’s report

**Title:** Classification of adults suffering from typical gastroesophageal reflux disease symptoms: contribution of latent class analysis in a European observational study

**Version:** 1  **Date:** 24 March 2014

**Reviewer:** Fabio Pace

**Reviewer’s report:**

The paper is interesting, wel written clear and statistically sound. My only doubt regards the clinical usefulness of the information gathered by means of LCA

**Level of interest:** An article of outstanding merit and interest in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
