Reviewer’s report

Title: Hydroxyurea and colonic ulcers: a case report

Version: 2 Date: 25 May 2014

Reviewer: KONSTANTINOS KATSANOS

Reviewer’s report:

It is a case report on hydroxyurea-induced colonic ulcers in a patient who finally underwent hemicolecction.

Minor comments
1. Please use standard journal abbreviations i.e. Ref 12
2. Please discuss more extensively endoscopic differential diagnosis
3. Please discuss if any preventive measure could be taken in order to avoid colon or GI tract ulceration in your patient.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
