Reviewer's report

Title: Advanced Biliary Tract Carcinomas: A Retrospective Multicenter Analysis of First and Second-line Chemotherapy

Version: 2 Date: 19 July 2014

Reviewer: Minsig Choi

Reviewer's report:

the manuscript addressed the major issues raised by both reviewers and modified the manuscript and responded to the key points.

I would accept the paper with spelling checks and some minor grammatical issues review.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
