Reviewer’s report

Title: Quantitative pedigree analysis and mitochondrial DNA sequence variants in adults with cyclic vomiting syndrome.

Version: 2  Date: 6 July 2014

Reviewer: John Hayman

Reviewer’s report:

Discretionary Revisions
The terms 'CVS plus' and 'catamenial' appear in a table but (?) are not mentioned or referenced in the text.
The very high percentage of CVS patients having surgery perhaps deserves comment.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
