Reviewer’s report

Title: MELD score and antibiotics use are predictors of length of stay in patients hospitalized with hepatic encephalopathy

Version: 1 Date: 12 August 2014

Reviewer: Akram pourshams

Reviewer’s report:

I recommended a minor revisions ;
a. text included information a table 2, so omitting that table would be nice.
b. to mention list of all antibiotics that patients have used , to have better understanding of patient condition ,

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
