Reviewer's report

Title: Fluvoxamine for fatigue in primary biliary cirrhosis and primary sclerosing cholangitis: a randomised controlled trial.

Version: 3 Date: 2 July 2004

Reviewer: Martin I Prince

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

No further additonal changes needed

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

None
