Reviewer's report

Title: Liver, spleen, pancreas and kidney involvement by human fascioliasis: imaging findings

Version: 1 Date: 21 May 2004

Reviewer: Mustafa Demirci

Reviewer's report:

A interesting case report but same minor essantial revisions required
References must be reduced
Fasciola hepatica must be written italic and Fasciola hepatica may abreviated as F. hepatica and always F. must be written big. First word of Species name of parasites is big and genus name first word is small,
In the page 5, second paragraph line 9 "The eozinophilia waxed..........." The sentence must be written more clear form. Line 12 Toxocara Canis must be changed as Toxocara canis.
The other spelling mistakes must be corrected.
The paper must be controlled by a native English speaker

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes
