Reviewer's report

Title: Serum hyaluronate as a Non-invasive Marker of Hepatic Fibrosis and Inflammation in HBeAg-negative Chronic Hepatitis B

Version: 5 Date: 26 September 2005

Reviewer: Edoardo Giovanni Giannini

Reviewer's report:

General
The Authors have answered to the questions and made the requested corrections to the manuscript.

-----------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
