Reviewer’s report

Title: Reactive Lymphoid Hyperplasia of the Liver in a Patient with Colon Cancer: Report of Two Cases

Version: 1 Date: 24 July 2006

Reviewer: Dimitrios Filippou

Reviewer’s report:

General

It is a well written article referring to very rare (at least not extensively covered in the literature) cases of a rare entity. The paper is written very well and possesses remarkable scientific and educational interest. No revisions are required for the manuscript and the figures are acceptable. So my conclusion is that is acceptable for publication without any minor or major revisions.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
