Reviewer's report

Title: Predictors of gallstone composition in 1025 symptomatic gallstones from Northern Germany

Version: 2 Date: 13 November 2006

Reviewer: Ulf Gustafsson

Reviewer's report:

General
I have read the authors reply letter and I find their reply and the changes in the manuscript acceptable. I suggest that you accept the manuscript for publication in BMC Gastroenterology.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
