Reviewer’s report

Title: Adherence to Colorectal Cancer Screening Guidelines in Canada

Version: 1 Date: 23 July 2007

Reviewer: Theodore Levin

Reviewer’s report:

General

Very important information about predictors of screening exposure. I agree with the interpretation that screening will not be successful if we rely on "opportunistic screening" to occur during primary care physician visits.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None.

Discretionary Revisions (which the author can choose to ignore)

None.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
