Reviewer's report

Title: Blood ammonia levels in liver cirrhosis: a clue for the presence of esophageal varices.

Version: 1 Date: 24 December 2008

Reviewer: Bader Faiyaz Zuberi

Reviewer's report:

The study is well designed and conducted and does not have any major faults in it. I feel that it should also be reviewed by a statistician.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
