Reviewer's report

Title: Vitamin C supplement use may protect against gallstones: an observational study on a randomly selected population

Version: 4 Date: 28 August 2009

Reviewer: Henning Wittenburg

Reviewer's report:

I reviewed the revised version of the manuscript entitled "Vitamin C supplement use may protect against gallstones: an observational study on a randomly selected population" and the authors' response to my criticisms of the previous version of the manuscript. The answers to my original criticisms have been are completely satisfactory and the authors have revised the manuscript accordingly. Due to the importance of this article in the field I therefore recommend publication of the manuscript without further revisions.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
