Title: Nurse-based case management for aged patients with myocardial infarction - study protocol of a randomized controlled

Version: 1 Date: 10 May 2010

Reviewer: Desmond Julian

Declaration of competing interests:

The answer to the following questions;
1. Will the study design adequately test the hypothesis?
2. Are sufficient details provided to allow replication of the work or comparison with related analyses: if not, what is missing?
3. Is the planned statistical analysis appropriate?
4. Is the writing acceptable?

Is ‘yes’

I think the paper should accepted as is.
