Title: Palliative Care for the Elderly. Developing a curriculum for Nursing and Medical Students.

Version: 1 Date: 5 May 2010

Reviewer: vito curiale

Reviewer’s report:

Major Compulsory Revisions: none
Minor Essential Revisions: some language correction and more consistency in the terms used will help the overall clearness.
Discretionary Revisions: did you seek advice from an experienced documentalist about the search strategy for electronic databases? Maybe you could use an age filter for restricting to the elderly. I am also not fully convinced about the use of the term “needs” combined with the AND operator.
Despite these remarks think you searches are on the whole adequate to address your questions and purposes.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
