Reviewer's report

Title: Is there an association between low dose aspirin and anemia (without overt bleeding)?: narrative review

Version: 2 Date: 18 August 2010

Reviewer: William Ershler

Reviewer's report:

Again, this manuscript is well written and although not definitive, it is thought provoking and may generate interest and additional research on this topic. The manuscript has been improved by the changes made.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.
