Reviewer's report

Title: Validity, responsiveness and the minimal clinically important difference for the de Morton Mobility Index (DEMMI) in an older acute medical population

Version: 3 Date: 13 September 2010

Reviewer: Stephen Lord

Reviewer's report:

The authors have responded adequately to my initial issues. I have no further points to make.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
