Reviewer's report

Title: Comparison of hemodynamic and nutritional parameters between older persons practitioner of physical activity nonsmokers and ex-smokers.

Version: 3 Date: 23 June 2010

Reviewer: Catherine Chambliss

Reviewer's report:

Minor Essential Revisions
Some language problems remain.
e.g., not a sentence:
Was considered a regular
physical exercise those practiced three times a week.
Also, correct tense problem:
e.g., The values of hemodynamic and
nutritional variables observed in this study, shows (should be "values...show")

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
