Reviewer's report

Title: An Organizing Framework for Informal Caregiver Interventions: Detailing Caregiving Activities and Caregiver and Care Recipient Outcomes to Optimize Evaluation Efforts

Version: 2 Date: 30 August 2011

Reviewer: Anneke Francke

Reviewer's report:

My comments on the previous version are addressed satisfactory. Only some minor revisions are recommended (see below).

- Minor Essential Revisions:
The sentence on page 18 “One of these things is not like the other” is disturbing and can best be removed.
The sentence on page 18 “Ideally, a researcher would measure both of these caregiving activities,...” has to be reformulated in “Ideally, a researcher would measure both quality and quantity of caregiving activities,...”
The sentence on page 23 “…, but to understand differences in approaches one would need to return to the source articles”, sound a bit ‘cheap’ and can best be removed.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
