Version: 3 Date: 5 September 2011

Reviewer: Michael Buck

Reviewer’s report:

Minor issues not for publication

1. This sentence needs a period at the end:
   “Studies show that elderly patients can present alterations in practically all
   pharmacokinetic processes (absorption, first-pass metabolism, bioavailability,
   distribution, protein building, renal and hepatic clearance)”

2. “Jano & Aparasu” needs a space.

Minor Essential Revisions

This entry still needs correcting in Table 2. The range values given do not include
2.70.

4-6: 2.70 (1.17 - 1.17). They should be “(2.696–2.706)” as in the original paper.
