Reviewer's report

Title: The impact of early emergency department allied health intervention on admission rates in older people: a non-randomized clinical study

Version: 1 Date: 12 September 2011

Reviewer: Corina Naughton

Reviewer's report:

Major Compulsory Revisions

Interesting concept but lack of specific detail. Very limited reporting of results

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
