Reviewer’s report

Title: Evaluation of a Modified Community Based Care Transitions Model to Reduce Costs and Improve Outcomes

Version: 2 Date: 25 June 2013

Reviewer: Janet Mentes

Reviewer’s report:

This manuscript reports the process and outcomes evaluation of a nursing-supported transitional care program which is of significant interest to healthcare providers who will be providing healthcare under the ACA. The significance of the study is well stated, the research questions and methods are appropriate.

I only have a few minor essential editorial revisions which relate to typos/repeated words on page 6 first paragraph number 3 patient is stated twice, Manuscript should be paginated, on page 15 spell out appointment, don't begin sentence with a number--spell it out.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
