Reviewer's report

Title: The effect of interactive cognitive-motor training in reducing fall risk in older people: A systematic review

Version: 2
Date: 28 May 2014
Reviewer: clemens C becker

Reviewer's report:

I have read the manuscript. The abstract, methodology, results and discussion are well written.
The limitations are stated and the conclusions are justified.
The manuscript is acceptable in the current form and adds substantially to the existing literature.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

'I declare that I have no competing interests'
I have worked with the first author in the past.
Authors Lord and de Bruin have been part of joined project activities.
