Reviewer’s report

Title: Health-related Quality of Life in the Cambridge City over-75s Cohort (CC75C). Development of a dementia-specific scale and descriptive analyses.

Version: 2 Date: 14 August 2013

Reviewer: Elsie Yan

Reviewer’s report:

Major compulsory revision - nil.

Minor essential revision -
1. Please provide information as to how many papers were screened and how many selected for the meta analysis. Was any attempt made to source papers that were not published?
2. The authors need to strengthen the discussion comparing the instrument they developed to existing measures, its strengths and weaknesses.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
